

RRDC12

DESCRIPTION

The RRDC12 is used in conjunction with either a RCC48 or RLM48 controller card.

The RRDC12 actuates a bank of 12 relays ON and OFF and monitors their states. It also monitors 3 programmable system switch inputs. Each card is associated with a bank of 12 relays. The 24 relay panel accepts two cards (1-12, 13-24); the 48 relay panel accepts four cards (1-12, 13-24, 25-36, 37-48).

SPECIFICATIONS

Description	12 Relay Drive / Monitor Card
Catalog #	RRDC12
Operating Environment	0-55 Degrees C (32-131F) 0-95% RH, Non Condensing Non Corrosive atmosphere
Mounting	In RINTERxxxx
Weight	1 lb. / .5 Kg
Codes	UL 916 Energy Management CSA Certified
